

Title: Library Web Site Usage Statistics: Digital Collections, 2003-2017

Description: This dataset contains usage statistics collected via Google Analytics for various digital collections on the CSU Libraries' website, covering dates between 2003 and 2017. These statistics were originally generated and documented by Greg Vogl (Middleware Developer, Academic Computing and Networking Services, formerly Library Technology Services staff), and stored on a website (<https://lib2.colostate.edu/staff/web/webstats/digital.html>) which was discontinued in 2022. The usage statistics reports were downloaded by Amy Ball Wicklund (Library Developer and Applications Administrator), and this README documentation was created by Mara Sedlins (Data Management Specialist). Contact persons listed on the collection pages are included as authors as well.

Contact: Mara Sedlins, mara.sedlins@colostate.edu

License information or restrictions placed on the data – The material is open access and distributed under the terms and conditions of the Creative Commons Public Domain "No rights reserved" (<https://creativecommons.org/share-your-work/public-domain/cc0/>).

Recommended data citation – Vogl, G., Paschal, D., Rettig, P., Hunter, N. Lopez-Terrill, V., Meyer, L., Wilde, M., Lunde, D., Ball Wicklund, A., & Sedlins, M. (2022). Library Web Site Usage Statistics: Digital Collections, 2003-2017. Colorado State University. Libraries. <http://dx.doi.org/10.25675/10217/236406>

Format of data files – .zip, .pdf, .xls, .csv, .html

Time period during which data were collected – 2003-2017

File Information

Usage statistics files are organized into folders based on the websites for which usage statistics were collected. See folder_inventory.csv for a list of folder names and website information that was obtained from the index.html file stored in each folder.

Directory structure and file inventory of downloaded reports in usage_statistics_2003-2017.zip:
